

**Polymer Modified Expansion Joint Binder**  
**Qualified Product List**

**Specification - Requirements**

Supplement Specification 846.02 – Binder: ASTM D6297, Table 1

**Requirements for inclusion on the Qualified Product List**

**Submit to the Office of Materials Management the following information:**

1. For initial approval, submit 10 pounds (4.5 kg) of binder to the Laboratory. Provide certified test data for the product and a letter with the following:

- Manufacturer Name and plant address
- Product Name
- Typical Markings on the packing and any date markings.
- Application instructions and temperature limitations.
  - Include photo illustration of surface preparation, bridging plate installation, and material installation.
- Effective product life.
- SDS for product.
- Agreement to immediately notify the Department on any changes in production, materials, dimensions, before shipment.
- Provide the Department a contact name, number and e-mail address

2. Provide samples and re-certification documentation annually by January 1 of each year.

3. Submit to:

Ohio Department of Transportation  
Office of Materials Management  
Attn: Eric Biehl  
1600 West Broad Street, Columbus, OH 43223

**Acceptance by the Department**

The Office of Materials Management will review a manufacturer's submittal for compliance with specification requirements.

Accepted products will be listed on the Department's qualified product list web page and will be loaded into the Department's database system for acceptance in the field through the QPL screen.

**Field Documentation requirements**

Provide certified test data and application instructions and temperature limitations with the material supplied to Department projects per SS-846.

Products on the QPL will be accepted if they can be identified by the field to a supplier/manufacturer listed on the Department's Qualified Products List
