

Division of Construction Management, May 12 2010

The following Administrative Ruling is hereby issued:

While the spec book eliminated the requirement for formally reporting all **temporary materials**, it was not intended to have that records of what temporary materials were should be kept or provided. This administrative ruling establishes general requirements for control, acceptance and documentation of temporary construction items and any associated materials to assure safety, quality and durability.

- 1) The Engineer will evaluate temporary construction and material items according to 106.03
 - a. The Engineer will document temporary items by including in the project file:
 - (1) Type.
 - (2) Source.
 - (3) Quantity.
 - (4) Any delivery tickets or provided documentation the Engineer used as evidence for acceptance.
 - (5) Certification showing compliance with NCHRP 350 or permitted usage of inventory items.
 - (6) If temporary material specifications are the same as ODOT permanent materials documentation from the Contractor equal to what is received for a permanent material is required. (i.e. if a TE24 is required for the material obtain and keep the TE24)
 - b. Treat the following temporary construction and material items as permanent items and follow standard acceptance procedures using CMS to document acceptance of these items.
 - (1) Temporary concrete pavement items.
 - (2) Temporary asphaltic concrete pavement items.
 - (3) Temporary structure items.
 - (4) Temporary traffic markings
 - (5) Any other temporary item that will be permanently incorporated into the completed project.
- 2) The Engineer may document inspection and acceptance of temporary items by entry into the Daily Diary. Any accompanying documentation or required certifications will be maintained in a file for the applicable pay item.

If the Engineer has accepted temporary items by the above procedures without issuing a TE-30 to the District Lab, then at the conclusion of the project, the Engineer will complete and submit to the District Testing Engineer the **Certification Of Temporary Materials** given in Appendix A.

Appendix A

STATE OF OHIO
DEPARTMENT OF TRANSPORTATION

CERTIFICATION OF TEMPORARY MATERIALS FOR CONSTRUCTION AND ROADSIDE IMPROVEMENT ITEMS

PROJECT NO: _____

COUNTY: _____

ROUTE NO: _____
