

Instructions for Selecting the Correct Caulking Material

1. Click the link to the left (514.02) to access the caulking page.
2. Know which manufacturer is supplying the epoxy/urethane system for the project.
3. Look for that manufacturer under the P/S Name heading.
4. Look for the brand name of the caulk immediately to the left of the manufacturer under the Brand Name heading. This is the correct caulk to use for that paint manufacturer.
5. Click on the brand name to obtain more information about the caulk manufacturer.
