

Preformed Expansion Joint Filler/P.V.C Expansion Sponge

Qualified Product List Specification - Requirements

ODOT Construction and Materials Specifications - 705.03 and / or 711.28

Requirements for inclusion on the Qualified Product List

Submit to the Office of Materials Management the following information:

1. Manufacturer's letter certifying the Preformed expansion joint filler or PVC Expansion Sponge supplied to the project will meet or exceed Departmental specifications and include:
 - A. Provide certified test data for the product
 - B. Typical markings, identifying manufacturer
 - C. Provide 1.5 x 2.5 samples for each different thickness manufactured
 - D. Agreement to immediately notify the Department on any changes in production, materials, dimensions, before shipment.
 - E. Provide the Department a contact name, number and e-mail address
2. Provide re-certification documentation by January 1 of each year

Acceptance by the Department

The Office of Materials Management will review a manufacturer's submittal for compliance with specification requirements and will perform tests on the pre-qualification samples.

Accepted products will be listed on the Department's qualified product list web page and will be loaded into the Department's Construction Management System for acceptance in the field through the QPL screen.

Products quality assurance sampled from the field that fail to meet specifications will remove the supplier/manufacturer from the approved list.

Field Documentation requirements

Products on the QPL will be accepted if they can be identified by the field to a supplier/manufacturer listed on the Department's Qualified Products List
