

Gravity Fed Resins

Qualified Product List

Specification - Requirements

ODOT Construction and Materials Specifications 705.25 (PN-515 in 2002)

Requirements for inclusion on the Qualified Product List

Submit to the Office of Materials Management the following information:

1. Manufacturer's letter certifying the gravity fed resins supplied to the project will meet or exceed Departmental specifications and include:
 - A Conform to the requirements of 705.25
 - B Provide certified test data on the injection resin showing compliance to materials requirements.
 - C Typical markings on the packaging and any date markings.
 - D Application instructions and temperature limitations.
 - E Effective product life
 - F Agreement to immediately notify the Department on any changes in production, materials, dimensions, before shipment.
 - G Provide a 1 gallon sample and MSDS
2. Provide the Department a contact name, number and e-mail address
3. Provide re-certification documentation by January 1 of each year

Acceptance by the Department

The Office of Materials Management will review a manufacturer's submittal for compliance with specification requirements and will evaluate any pre-qualification samples.

Accepted products will be listed on the Department's qualified product list web page and will be loaded into the Department's Construction Management System for acceptance in the field through the QPL screen.

Field Documentation requirements

Products on the QPL will be accepted if they can be identified by the field to a supplier/manufacturer listed on the Department's Qualified Products List.
