

## Square Posts

### Qualified Product List      Specification - Requirements

ODOT Construction and Materials Specifications 730.016

### Requirements for inclusion on the Qualified Product List

#### Submit to the Office of Materials Management the following information:

1. Manufacturer's letter certifying the Square Posts supplied to the project will meet or exceed Departmental specifications and include:
2. Include a notarized statement with the letter that the steel is of domestic origin and meets the Department's requirements for domestic steel.
3. Provide certified test data for the steel required within the ASTM specification
4. Provide certification and actual measurements for galvanized and the cross link polymeric acrylic coating.
5. Provide a yield type driven post without breakaway devices conforming to NCHRP 350 requirement. Provide a copy of the approval letter from FHWA.
6. Provide 2 foot samples of each post size to be supplied.
7. Typical markings, if any, identifying manufacturer
8. Agreement to immediately notify the Department on any changes in production, materials, dimensions, before shipment.
9. Provide the Department a contact name, number and e-mail address
10. Provide re-certification documentation by January 1 of each year

#### Acceptance by the Department

The Office of Materials Management will review a manufacturer's submittal for compliance with specification requirements and will perform tests on the pre-qualification samples.

Accepted products will be listed on the Department's qualified product list web page and will be loaded into the Department's Construction Management System for acceptance in the field through the QPL screen.

Any quality assurance field samples found to not meet specifications will mean removal of the supplier/manufacturer from the qualified products lists.

#### Field Documentation requirements

Products on the QPL will be accepted if they can be identified by the field to a supplier/manufacturer listed on the Department's Qualified Products List
