

Ohio Department of Transportation

Prebid Questions

Project No. 060422

Sale Date - 9/20/2006

Question Submitted: 9/8/2006

Question Number: 1

Two questions

1. Proposal page 20 calls for medium traffic design yet quantities call for Type 1H and Type 2, Pg 64-28. (Heavy design). If indeed heavy, see note 2.

2. Small quantities of Type 1H and Type 2, PG 64-28 will inflate the price of these mixes. We purchase liquid asphalt by the load. (approximately 400 Hot mix tons). With the 10 CY of Type 1H and 10 CY of Type 2, PG 64-28 set up for Reference 0012 and 0013, there will be much waste. Can PG 64-22 be utilized in any way for the intermediate and surface?

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
