## Prebid Questions

Project No. 080358

Sale Date - 6/4/2008

Question Submitted: 5/27/2008

Question Number: 1

On sheet 3, general notes, under item 254 pavement planing, in the second paragraph, it states that "the planing shall be scheduled so that the intermediate course will be placed one week following the planing." Two sentences later it says that "after planing operations asphalt intermediate course shall be placed prior to the opening of the lanes to traffic." These statements seem to contradict each other; could you please clarify whether the milled surface can be exposed for a week or not.

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
