Question Number: 2

It appears that the quantity (5.56 Miles) for REF. 14, WORK ZONE CENTERLINE is twice the amount required for the job. Should the correct quantity be 2.78 Miles?

It is the intent of the plan that the Contractor will have to place two applications of Work Zone Centerline. The first application after the first side of the roadway is paved and a second application after the remaining side of the roadway is paved. Please see the note on sheet 2/7: "The Contractor shall install Item 614 - Work Zone Center Line, Class I prior to opening the lane to traffic, or when the existing markings have been covered or damaged, as per requirement 614.11 of the CMS."

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
