Prebid Questions

Project No. 040636

Sale Date - 12/15/2004

Question Submitted: 12/6/2004

Question Number: 1

Regarding structure CLA-70-1873, I have the following questions:

- 1) How many trains per day run over the bridge?
- 2) What type of trains (freight or passenger)?
- 3) At what speed do they run?
- 4) Will slow orders be issued?

This information is available in the Proposal on page 80 Special Clauses. The Special Clauses require the contractor to contact the Railroad prior to work. Flaggers will be available, if needed, and can slow the train speed down if necessary.

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
