Prebid Questions

Project No. 080099

Sale Date - 2/13/2008

Question Submitted: 1/25/2008

Question Number: 1

This question is related to Changeable Message Signs PID: 82712. Can a CMS manufacturer which is not listed in the NEVADA QPL but comply with the requirements bid this project?

We will only accept signs which have been reviewed by the Nevada DOT and having been determined to be compliant with their QPL. ODOT will not make the determination of compliance with another state's Qualified Products List, only that state can address their requirements.

Question Submitted: 1/28/2008

Question Number: 2

Is work allowed behind the concrete barriers during daytime hours? The only work hour restrictions I find is for short duration lane closures. Once the zone is set are you allowed to work continuous?

Yes. There are no restrictions for working behind the barrier.

Question Submitted: 1/28/2008

Question Number: 3

Plan sheet 7a refers to a UPS at various locations, and the supplemental spec for the ITS cabinets requires the ability to accept a UPS system. However, the plans do not indicate who is to furnish/install any UPS systems. We are assuming that the UPS systems are by others. Please clarify.

Sheet 7a shows that the UPS is to be provided by ODOT.

Question Submitted: 1/28/2008

Question Number: 4

Reference 69, Plastic U-Guard is listed in the proposal as a per each item. The subsummaries are listed by linear foot. Which is the correct method of measurement? We are assuming LF.

Thank you for pointing out the incorrect units in the Proposal. Because the value of the item is relatively small compared to the cost of the entire Project, we will not delay the sale in order to process an addendum.

Question Submitted: 1/28/2008

Question Number: 5

The plan sheets for site #1 only call for Anchor Assmbly removed for reuse, Type E98. There is added guardrail where the E98 is to be removed with no end treatment. It appears that the intent is to reinstall the removed E98. Please clarify this, and, if this is what's required, a pay item for Anchor Assmbly Type E98 "rebuilt" needs to be added to the bid items. Thanks

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.

Prebid Questions

Project No. 070445

Sale Date - 9/26/2007

Question Submitted: 8/30/2007

Question Number: 1

One section inside the Special Provisions for this project describes "CATEGORY 5(e) NETWORK CABLES." There does not appear to be a pay item for these cables, so does one need to be added or is this section supposed to describe the material for Bid Reference 50 (800 Feet Interconnect Cable, Misc.: Indoor/Outdoor, Category 6(E) Cable, 6 Pairs)?

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
