## Prebid Questions

Project No. 090421

Sale Date - 8/26/2009

Question Submitted: 8/13/2009

Question Number: 1

Reference plan page 33 /73 and bid items 20 & 21. Items 20 and 21 are provided to re-connect an existing median lighting circuit. When the wall between station 540 and 541 is removed this existing circuit will be dead leaving lighting on one side or the other out. Does the Department want a temporary feed from pole to pole to keep this circuit energized? And should there be an item for disconnecting the existing circuit and removal of the distribution cable?

Question Submitted: 8/21/2009

Question Number: 2

The plans state there is (1) sign to be picked up from district, delivered and installed yet there is no pay item for this. Will a pay item be added for this?

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
