Prebid Questions

Project No. 100108

Sale Date - 2/25/2010

Question Submitted: 2/22/2010

Question Number: 1

The plans state that pavement marking reapplication would be required if reflectivity readings fail prior to May of 2011. If the DLS sheets state that the appropriate amount of material was initially applied will this requirement still apply. If so, will the DLS system still apply and is this a "performance based" contract?

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
