## Prebid Questions

Project No. 060104

Sale Date - 2/15/2006

---

Question Submitted: 1/30/2006

Question Number: 1

References 1 & 2 on this project are set up for asphalt to maintain and repair local detour roads. The quantities provided seem very high considering the short term nature of the closures (15 and 20 days) and the overall size of the project. These contingency items will represent roughly 30 percent of the total project cost with no clear guidelines for their use. Does ODOT have a specific reason for these large quantities and if so can you clarify their intended use?

---

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
