Prebid Questions

Project No. 040611

Sale Date - 12/1/2004

Question Submitted: 11/17/2004

Question Number: 1

The following reference numbers 10, 12, 14 and 18. have as per plan attached to them.

General note page 2/166 Item 630: Signing Misc: Ground Mounted Support. Listed below is a very wordie description of some sort of multi-directional breakaway traffic sign support system. I have never heard about this discribed system nor have I ever seen a detailed drawing for the requied material.

Is the W10 X 22 and the W12 X 30 post and the 4 Breakaway connections to be by this standard, or will the state standard for Omni Directional Breakawy's be used.

Also you have 32 sign attachment assemblies APP, are these just to be furnished to the state, or how does the breakaway design in this note apply.

This is all very confussing to me. Maybe you can clear the fog up.

If you have any questions please give me a call.

Thanks for you help.

Steve Russell

The Multi-Directional Breakaway Traffic Sign Support is Ref #0034 Signing , Misc: Ground Mounted Support, as indicated in the plan note on sheet 2/166 and detailed on plan sheet 4/166. Ref numbers 10,12,14 and 18 are As Per Plan because of the material delivery to the district and do not relate to the note for ITEM 630: Signing, MISC: Ground Mounted Support on sheet 2/166.

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
