## Prebid Questions

Project No. 050265

Sale Date - 4/20/2005

Question Submitted: 4/13/2005

Question Number: 1

Bid item 6 Stop line, Type C 152 FT

There is no such thing as Typed C Pav't Marking.

Please Clarify

**Please refer to Construction Material Specifications 647 and 740.08 for information on Heat-Fused Preformed Plastic Pavement Marking material.**

Question Submitted: 4/13/2005

Question Number: 2

The prevailing wage rates for line construction seem to have been inadvertently omitted. Please add these rates to the proposal. Thank you.

Question Submitted: 4/15/2005

Question Number: 3

Thank you for the addition of the line construction prevailing wage rates. However, the wage rates listed have been updated or will be updated during the project. Please provide the current rates. Thank you.

**The rates provided are the most up to date rates listed on the State Wage and Hour web site. I have been told that if the rates have been updated since those that are posted, the union failed to provide them to State Wage and Hour. On State funded however, the contractor is responsible for paying the most up to date rates even if they differ from those published in project proposal. The contractor awarded this project will be made aware of any changes in the rates listed by the ODOT District Prevailing Wage Coordinator.**

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
