Question Number: 1

1.pg. 3/27 Litter pickup, How are we to estimate the amount of volume of litter to be disposed without a quantity to go by? A pick up truck load a day disposal cost compared to a semi load, for example.2, Watering plants, in drought situation: Am I to assume watering is to be very little of a requirement (few hundreds gallons) or should there be a quantity number, per unit, on final sheet?3. Fertilizer: I couldn't find a quantity on this in plans as stated on pg. 4/27 item #3

1. By surveying the areas where litter pickup is to be performed and Estimating the amount (volume) of litter a person will pickup in an hour at a rate that equals one "round" per month. 2. Vegetative watering is included in ITEM SPECIAL - MISC.: LANDSCAPE MAINTENANCE. The Contractor will be responsible for the condition of the plants during each month. If dry conditions occur then the contractor must meet the moisture requirements by hauling water to the locations. If weather conditions are more favorable (wet) then the contractor meets the requirement without having to do any watering. 3. Fertilizer is included in ITEM SPECIAL - MISC.: LANDSCAPE MAINTENANCE.
