Prebid Questions

Project No. 100042

Sale Date - 1/28/2010

Question Submitted: 1/20/2010

Question Number: 1

A few of the intersections to be rebuilt complete with messenger wire have existing video camera detection systems, but an item for video detection cable is omitted. We request that an item is added for this cable. What make and model are these systems?

Only two of the locations have cameras. One at SR-2 and Eber and one at SR-2 and Turnpike. The one at SR-2 and Eber is not on the messenger wire so it is not a problem. The one at SR-2 and the Turnpike the video detection cable is on the span and should be re-used on the new messenger wire.

Question Submitted: 1/20/2010

Question Number: 2

Several of the spans where the signals are to be replaced are attached very close to the tops of the poles. What will be the protocol if the signals are below the required minimum height with the tethers and backplates, and the spans cannot be adjusted up the pole?

This will be on a case by case basis but we feel most, if not all, locations will be able to be adjusted.

Question Submitted: 1/20/2010

Question Number: 3

If lighting exists at intersections at which the power service is to be replaced, the contractor is to install a separate disconnect for the lighting. How are the luminaires currently fed? Will distribution cable or connector kits be necessary from the new disconnect to the first attachment point? Is the distribution cable for the lighting at the intersections receiving new spans underground, or is it currently installed on the span?

A 1 - See page 5, item 632 power service, note 4. A 2 - All three are overhead. A 3 - No. A 4 - N/A

Question Submitted: 1/7/2010

Question Number: 4

How are the pedestrian heads attached?

A pdf table of the pedestrian head attachments has been posted to the following ftp site:<ftp://ftp.dot.state.oh.us/pub/Contracts/Attach/FUL-83590/>

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
