Prebid Questions

Project No. 060182

Sale Date - 4/5/2006

Question Submitted: 3/16/2006

Question Number: 1

Page 111, the water line plan view has a note stating the following: "Contractor is to perform installation of new 24"x16" tee and valve prior to installing the new 12" water main in Montgomery Road to determine alignment and depth of proposed 12"x12" tee. The contractor shall include all costs associated with this work in Item 1101-Furnishing and laying 24" P.C.C.P. and fittings. The Contractor shall perform this work during the months of November 1 through March 1."

I have 2 questions regarding this note: #1. Is there a pay item for Furnishing and laying 24" P.C.C.P.? I do not see one in the proposal. #2 If the contractor has to wait to do the 12" water main until the 24" x 16" valve is in, and the valve cannot be installed until November 1, how can the contractor get done by the contract completion date of October 31, 2006?

Question Submitted: 3/16/2006

Question Number: 2

The elevation of the waterline in the cross sections does not match the elevation in the waterline plans. Which one is correct.

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
