Prebid Questions

Project No. 050567

Sale Date - 12/2/2005

Question Submitted: 11/10/2005

Question Number: 1

Ref 111 does not include the height in the description, however the plan note on sheet 28 clearly states the fabric will be 10' high. The detail on plan sheet 39 indicates the top of the fence should be 10' above parapet, which is the approximate height of 12' curved fence. We will assume that 10' fabric will be sufficient.

Question Submitted: 11/16/2005

Question Number: 2

The specification for the light poles is very vague. Can Odot provide more specific information as to the acceptable make / manufacturer of the light pole and luminaire?

Any manufacturer or model will do as long as it meets the specifications and looks similar to the picture on Sheet 43/52.

Question Submitted: 11/7/2005

Question Number: 3

There are two bid items for Vandal Protection Fence on this project. Ref 111 has a corresponding note on plan sheet 28 requiring black fabric. Ref 119 does not have a similar note. Do you want the fabric to be black on this item as well. The plan note currently makes no mention of black posts, framework, etc. Please use additional plan notes if the intention is to use all black on all fence components.

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
