

Ohio Department of Transportation

Prebid Questions

Project No. 040313

Sale Date - 5/5/2004

Question Submitted: 5/3/2004

Question Number: 1

Would ODOT address the following prebid questions for the above mentioned project:

1. Can the requirements for benching be waived for such small quantities?
2. On sheet 3 of the plans the existing legend shows the pavement as asphalt concrete on asphalt concrete base. Can the thicknesses be provided so that we can determine sawcut depths, waste disposal fees and trucking quantities?
3. In most projects of this variety there is a bid item for cofferdams, cribs and sheeting. This project has no such bid item. We will obviously have to control the water on this project, can a bid item be added?
4. Are there record drawing available for the project that accurately detail the existing footers, abutments and wingwalls?

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
