Prebid Questions

Project No. 050579

Sale Date - 11/16/2005

Question Submitted: 11/3/2005

Question Number: 1

1. There appears to be an overlap or conflict between phase 1 & 2 temporary pavements and the widening requirements on sheet 2/32
2. We cannot confirm the 40 s.y. quantity of type 2 waterproofing
3. Is a SWPPP going to be required by district for the 400 cy of waste dirt.

A1) We do not believe that there is a conflict between the temporary pavement and what is shown on sheet 2/32. Plan sheet 4/32 contains a note for Item 615. Plan sheets 5/32 & 6/32 show MOT phase plans. A2) Notice sheets 25/32 & 27/32, note 6 on each sheet and see section A-A on sheet 6 and also look at the plan view specifically at the phase construction joint for placement of the waterproofing. A3) Contractor shall follow requirements of SS 832 & 833 and bid accordingly. The Department does not anticipate need for earth disturbing activities, but the contractor means and methods will determine this.

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
