Prebid Questions

Project No. 050115

Sale Date - 3/9/2005

Question Submitted: 1/25/2005

Question Number: 1

Should Ref 139 be deleted and the quantity for center line be increased for the length where transverse line is shown? Please Clarify.

Question Submitted: 2/11/2005

Question Number: 2

B/R 167: Controller Unit, type TS2/A2, with cabinet type TS1, As Per Plan

The plan note for this item as detailed on page 171 of 217 requires "The controller supplied for this item shall be an EPAC 300."

This project does not meet any of the requirements to call out a proprietary item. This sentence should be removed from the proposal to allow for a fair and competitive bid.

The District has reviewed your request and respectfully disagrees. The City requested this controller and submitted a letter stating that 16 of their 22 signals were the EPAC 300. Therefore under section 1220-3, paragraph 2, page 12-21 of the TEM we can put this item into the plans.

Question Submitted: 2/15/2005

Question Number: 3

Does the contractor have to clear any trees around the building demolition?

Question Submitted: 2/15/2005

Question Number: 4

What are the specific clearing limits on this project?

Question Submitted: 2/17/2005

Question Number: 5

There is only 114 SF of thermoplastic island marking - not 8,407 SF.

Question Submitted: 2/2/2005

Question Number: 6

The project is near railroad tracks and a railroad insurance bond is required. I cannot find any information such as the number of trains, type of trains, maximum speed of trains, or insurance requirements for this project. Please provide this information. Thank you.

Question Submitted: 2/21/2005

Question Number: 7

Rough takeoff of the Ref. Nos. 222 and 233 - Concrete, Misc.: Architectural Treatment shows a significant increase from the pay quantities if the architectural treatment is applied to the limits shown on the plans. I am coming up with a quantity of approximately 1671 S.F. for RN 222 and 5400 S.F. for RN 233. The drawings show the architectural treatment to extend considerably below the finished ground line.

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
