

# Ohio Department of Transportation - Prebid Questions

**Project No. 100521**

**Sale Date - 10/21/2010**

**HOL-81732 - SR-39-6.76**

*Question Submitted:* 10/6/2010 9:16:11 AM

Per the "proposal" a HEAVY mix design requirement for the asphalt is called for. Per the "plans" the Type 2 Intermediate Course calls for a PG64-22 liquid. A Heavy design would call for a PG64-28 liquid. In the past most jobs in Holmes County have required a Medium mix design. Please clarify.

**See forthcoming Addendum**

*Question Submitted:* 10/5/2010 9:33:25 AM

If any centerline removal (per 422.06) and chip and seal work can not be done in the same day - will ODOT pay for class 1 temporary centerlines to replace centerlines that have been removed?

**See forthcoming Addendum**

*Question Submitted:* 10/5/2010 9:29:41 AM

When will ODOT determine which pavement areas, if any, are subject to 422.06 - longitudinal pavement marking removal prior to chip and seal work?
