## Prebid Questions

Project No. 090254

Sale Date - 5/6/2009

Question Submitted: 4/23/2009

Question Number: 1

Specification 501.05 states "Have an Ohio registered Engineer prepare, sign, seal and date each plan, Submit plans that will be accepted to all involved railway companies at least 50 days before construction begins." Taking into consideration the time to prepare the plan, 50 days notice to the railroad, obtain acceptance from all involved railroad(s,) and submit railroad(s) acceptance to the Engineer the completion date of September 30, 2009 will be almost impossible to meet. Will ODOT consider a time extension?

**Specification 501.05 "A" does not apply to this project. Sheeting and bracing of excavation is not adjacent to the railroad tracks. The demolition and erection of the structure is not within 14 feet of the railroad tracks. Time extension is not needed for this reason.**

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
