Prebid Questions

Project No. 050281

Sale Date - 5/11/2005

Question Submitted: 5/2/2005

Question Number: 1

There is a calculation error on page 12/30 of the plans. The quantities for the T-2 and T-1H reflect tons but are reported as cubic yards.

Question Submitted: 5/3/2005

Question Number: 2

Is it the intent that the lane closure restrictions on Plan Sheet 5 pertain to reconstruction of curb and ramps at intersections? If it is the intent, please reconsider.

It will be difficult for concrete suppliers to justify staying open at night to produce 10 cy of concrete. If they do, the concrete will be extremely expensive and will significantly increase the contractors bid prices to ODOT. These lane restrictions at intersections would be short in length and duration.

The District has reviewed your question. The Dept desires to maintain the lane closure restrictions as per the plan. This does apply to the reconstruction of the curbs and ramps at the intersections.

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
