Prebid Questions

Project No. 050610

Sale Date - 12/14/2005

Question Submitted: 11/29/2005

Question Number: 1

Ref. 95- Railroad Protective Bond

Proposal notes on plan sheets 32 and 33 and general notes on plan sheet 4 give only partial information needed in order to get a quote on a bond. We request that ODOT provide more information (track speed, types of materials hauled, etc.).

The contractor can get the Railroad information needed (track speed, types of materials hauled, etc.) by contacting the Railroads. This is the contact information for both railroads: Lake Shore Railway Association, P.O. Box 1131, Elyria, OH 44036-1131, Mr. Mark Chappo, LSRA Executive V.P., 1051 Bell Ave., Elyria, Ohio 44035, Home: (440) 324-6382, Station: (440) 647-6660, CSXT (representative) Mr. Larry Shaw, P.E., URS Corporation, 47 South Meridian, Suite 312, Indianapolis, IN 46204, (317) 635-0064

Question Submitted: 12/7/2005

Question Number: 2

The bid item for pavement repair requires the contractor to excavate pavement ranging from 2" to 12" deep. Could any coring information be provided on SR 303?

The District didn't core the pavement for this project. The plan note says the pavement repairs could be asphalt concrete, brick, concrete, or a combination.

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
