Letter A: What pay item will the abrasive blasting be under?

Letter H: What pay item will the preparation of the faying surfaces be under?

There is no item 513 specified in this project. Please check for the correct project number. Contact Prebid Coordinator at 614-275-1310 for further assistance.

Reference 7, Item 618 – Rumble Strips, (Asphalt Concrete) are not to be placed at the same location as Reference 2, Item 253 – Pavement Repair, As Per Plan. Item 253 – Pavement Repair, As Per Plan is to be used to remove the two existing concrete rumble strips. Item 618 – Rumble Strips, (Asphalt Concrete) are to be placed at six locations at the spacing shown on sheet 10/10. The plan quantity was measured longitudinally with the road, with five 12 ft. long rumble strips and one 8 ft. long rumble strip. The proposed rumble strips are to be placed at the width of the pavement, as shown on sheet 10/10. The proposed rumble strips will vary in width from approximately 24 ft. at the first 12 ft. long location to approximately 60 ft. at the 8 ft. long location.
