## Prebid Questions

Project No. 072007

Sale Date - 10/25/2007

Question Submitted: 12/11/2007

Question Number: 1

Line 0011 is a bid item for "Rock Channel Protection, Misc.: Riffle Construction" and is a lump sum bid item. The work is described on plan sheet 6 and reads that the work is to be performed "as directed by the engineer", the plan view reads "the distance to be determined by OSE personnel", and the cross section view reads "material thickness to be determined by OSE personnel." In order to bid this item of work there needs to be a definition of the scope more than "as directed" or "to be determined". Please clarify.

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
