Prebid Questions

Project No. 088038

Sale Date - 10/22/2008

Question Submitted: 8/12/2008

Question Number: 1

On page 63 of 109 section A-A is showing the 72" conduit being backfill with mortar backfill type 1. Is this only for the roadway section or the entire length of the culvert is to be backfill with the LSM TY 1 and Odor is only paying for 62 cy under reference 60. Or if the contractor allow to backfill the balance of the conduit with normal aggregates? Please clarified. The same question is would apply to the three box section shown on pages 69,79 of 109.

It would be just the roadway. The rest would be covered under the normal backfill. It states this in the note Item 503 Unclassified Excavation, As Per Plan. and there is a similar note for the rest of the culverts.

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
