## Prebid Questions

Project No. 098005

Sale Date - 3/25/2009

Question Submitted: 10/15/2008

Question Number: 1

Bid Reference # 23 "Loop Detector Unit, As Per Plan" is listed as a pay item in the proposal. This item typically refers to the loop amplifier in the traffic signal cabinet. Plan page 4 of 16 refers to "Detector Loop, As per Plan" which does not have a pay item but typically refers to the actual in pavement loop wire as the note details on this page. Are new loop amplifiers for the traffic signal cabinet required for bid reference # 23 or is this item only for the in pavement wire?

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
