Reference numbers 3-6 are bid as per plan. The plan calls out on page 5 what material should be used for these items and a certain bead application spec. This material is no longer approved. Can they specify these items that do not show up on the approved list? Thanks

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
