Prebid Questions

Project No. 080224

Sale Date - 4/2/2008

Question Submitted: 3/20/2008

Question Number: 1

Can a vibratory hammer be used to drive the Steel H-piles on this project? We have used this vibratory hammer to drive sheet piling on other ODOT projects.

No, they may not use a vibratory hammer.

Question Submitted: 3/6/2008

Question Number: 2

Is the completion date of 5-15-08 correct? This job does not sell until March 26th and it takes a 2-3 weeks to be awarded and the contract signed. The plan notes say you have a 90 day road closure. If we could start the middle of April, 90 days would put us well past the completion date.

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
