Per the plan notes on the detour of SR 118 it says This work is to be performed between 6/1/09 and 8/30/09. By the time the low bidder gets a signed contract, sets up a preconstruction meeting it will be August. 45 days seems enough time to complete this Project but starting work by 7/15/09 may be difficult.

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
