Prebid Questions

Project No. 080277

Sale Date - 4/23/2008

Question Submitted: 4/17/2008

Question Number: 1

In reviewing the plans for this project, we have noticed a discrepancy regarding Item 209 - Preparing subgrade for shoulder paving. The typical section on sheet 4 shows a width of 4'. The plan note on sheet 7 says an average width of 3' with a maximum width of 4'. The calculations on sheet 8 for Item 301 (which fills the void created by item 209) are based on 3'. Please clarify ODOT's intention and revise the notes or typical sections accordingly.

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
