Prebid Questions

Project No. 066023

Sale Date - 10/4/2006

Question Submitted: 10/2/2006

Question Number: 1

There isn't an asphalt item listed in the bid items. If asphalt repair is required through the work zone, which is typical for almost all drilling jobs, will the State pay to repair the road surface?

Thanks.

The bidding document do not require the contractor to perform asphalt repairs.

Question Submitted: 9/27/2006

Question Number: 2

On page 3/19, Item 614, Maintaining Traffic: The sentence states that "A minimum of one lane of traffic in each direction shall be maintained at all times by use of the existing pavement."

Due to the widths for both truck and track-mounted drill equipment, doesn't it seem reasonable that one lane should be closed to provide access for the equipment during construction? Should traffic control be set up in accordance with MT-97.10?

Thanks.

MT-97.10 is on the Title Sheet and should be used to set up traffic.

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
