Prebid Questions

Project No. 070433

Sale Date - 9/12/2007

Question Submitted: 9/10/2007

Question Number: 1

The proposal quantities for ref 77 & 78 do not match the EBS file. Which is correct?

Standard language in the addendum: The quantity sheets that show revised items will no longer be attached to the addenda. All Reference Item revisions are reflected in the EBS files (Expedite) for this project. The quantities in the addendum match the quantities in the EBS file, which is all that is required.

Question Submitted: 9/7/2007

Question Number: 2

Will water crossing be permitted? Can the mound of material on the NorthEast corner of Rt32 and Rt335 be used as borrow material?

A1: The determination that a Waterway Permit was not required for this project was based on construction of this project with no work below the normal water elevation. See Waterway Permit note on Sheet 20 of 38. A2: The Contract Documents do not identify any waste or borrow locations. See CMS Section 107.11.A.2.

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
