Question Number: 2

Hello, I have a question concerning the asphalt concrete courses on the project. The typical section on page 2 of the project plans shows the (1 ½" 448 asphalt concrete intermediate course, type 1, PG64-28) as the surface course.

Is this the correct mix for the surface course?

Is the (5/8" 854 fine graded polymer asphalt concrete, type A), correctly listed as the intermediate course?

Thank you, David Stager
