Prebid Questions

Project No. 060454

Sale Date - 10/18/2006

Question Submitted:

Question Number: 1

Please refer to the Guardrail Posts, 9 Feet As Per Plan (Line 0011) on the above referenced project. The State is requesting that the 9 Ft post on CR 127 and 550 be steel instead of wood (appr 123 of the 400 required.) Since the price difference between the 9 Ft steel posts vs the 9 Ft wood posts is around \$27 per each, wouldn't it be better to have a separate pay item for 9 Ft steel posts, APP and also, 9 Ft wood posts APP?

General Note Item 606 - Guardrail Posts, 9-Foot, As Per Plan on sheet 2 requires only the 9-foot posts on C.R. 127 & 550 to be steel. The 9-foot posts on CR 222 can be either steel or wood as specified by Standard Construction Drawing GR-2.1. The type of post chosen for CR 222 will be the discretion of the contractor. Please bid this item accordingly. Please note your reference to 400 9-foot posts is incorrect, Addendum No. 1 for this project revised this quantity to 382 Each.

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
