Prebid Questions

Project No. 050581

Sale Date - 11/16/2005

Question Submitted: 11/10/2005

Question Number: 1

On page 15/46 upper left corner note for closing Beeier Rd (See Maintenance of Traffic Detail) could not find detail on plan is this referring to an ODOT std. ? Thanks for your time

An "s" is missing from the word "detail." There is nothing special about this closing. The intersection would be closed as described in the MOT notes and striped as shown in the plans for the crossover.

Question Submitted: 11/14/2005

Question Number: 2

Concerning Item 47 - Roads for Maintaining Traffic:

Where is seeding paid for. Is it part of this item or is it paid under separate seeding items?

Specification 615.03 indicates that the contractor is to restore the area to the "original condition, according to Item 203." Item 203 does not include seeding.

Thank you for your time.

Sincerely,

Sandra Heschel
Mosser Construction

The contractor is required to restore the site to "original condition". If the original area is grassy then the grass need to be restored as part of the Roads for Maintaining Traffic item. The Item 203 reference is for how the contractor is to restore any needed embankment or proceed with any needed excavation.

Question Submitted: 11/4/2005

Question Number: 3

Can you clarify at what station along centerline USR20 the existing structure is located?

As shown on page 2 of the plans, the structure is located at STA 1084+12

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
