Prebid Questions

Project No. 060346

Sale Date - 7/26/2006

Question Submitted: 7/7/2006

Question Number: 1

The quantity for Item 202-Wearing course removed is 12,916 SY. The general notes read, " for the purpose of having a butt joint along all structures at the ODOT County Garage and outposts..."

The quantity however, matches the square yards for the total pavement area of the shelby co. garage on SR 29 exactly.

Question: Is the Shelby Co. garage on SR 29 being milling entirely, which would match the suggested quantity. Or do the general notes read correctly for milling butt joints only and the quantity may be wrong?

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
