Prebid Questions

Project No. 100208

Sale Date - 4/15/2010

Question Submitted: 3/29/2010

Question Number: 1

Concerning lane closure notes for bridges page 9/37. Structure 80-8.57R does not include Monday. Do we follow the lane closure chart? On structure 80-8.57L would it be possible to eliminate the 2 hour restrictions on either Sunday or Tuesday. these two hours restrict our work window to a maximum of 41 hours. eliminating one of these two hour restrictions would open the work window and increase production rates. This would lower the costs and the amount of times lane closures are needed for this structure.

Addendum will be forthcoming.

Question Submitted: 3/30/2010

Question Number: 2

Is it ODOT's intent to use the Supplemental Specification 800 – section 401.15 dated 1-15-2010 that requires the use of a Material Transfer Vehicles on all courses and in all areas of paving for this project?

Question Submitted: 4/1/2010

Question Number: 3

Pavement calculations provided for Ramp A/B seem to have taken only one WP into account. Total width of pavement should be 70' per the typical section on sheet 3 of 37. Please clarify or revise the applicable quantities in an addendum.

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
