## Prebid Questions

Project No. 080187

Sale Date - 3/5/2008

Question Submitted: 2/21/2008

Question Number: 1

American Electric Power has a power line that runs on top of and parallel to the centerline of the covered bridge and is in direct conflict with the work. This power line is not shown on the construction drawings. Will ODOT have this power line relocated at ODOT's expense prior to the start of work to allow safe construction methods?

Question Submitted: 2/29/2008

Question Number: 2

Ref. #24 Timber Roof System: Timber Summary Table indicates white oak for the strapping. The note on P-5 under "Design Specs" indicates the strapping to be #2 or better poplar. The kiln dried poplar will lay much better than the air dried oak. Which one should we include in our bid.

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
