Prebid Questions

Project No. 090436

Sale Date - 8/26/2009

Question Submitted: 8/10/2009

Question Number: 1

Bid Ref 0018 shows a quantity of (1) TC-12.30, Design 9. The General Summary show (1) of these Overhead Sign Supports; however, the signing subsummary does not show any. Nor does the plans show any Des 9 Supports. Can you verify if this should be a deleted item or supply the appropriate plan pages for this reference item?

Question Submitted: 8/18/2009

Question Number: 2

Ref. Nos. 13 through 16 are related to the painting of existing Overhead Sign Supports. The quantity of each item is 18, however according to the table most structures are based on only a quantity of one per structure. Shouldn't the correct quantity be 28 based upon the 14 structures that appear to be getting painted. Please review and advise if we are looking at this correctly. Also please advise ODOT estimating that this project is specified as a SP-10 blast surface prep that requires removal of the existing galvanized coating and application of the organic zinc prime coat. This process is many times more expensive than the process that ODOT has historically used to paint existing sign structures and will therefore significantly increase the overall cost to perform this project.

we took care of the quantities revisions in an addendum. The method of painting was left as shown in the plans.

Question Submitted: 8/3/2009

Question Number: 3

Ref. No. 18 calls for 1 each Overhead Sign Support, Type TC-12.30, Design 9. While this item shows up in the general summary, it does not appear in any sub-summary, nor are there any details for it. Is this structure required? And if so, what are the details?

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
