Prebid Questions

Project No. 102004

Sale Date - 6/25/2010

Question Submitted: 6/20/2010

Question Number: 1

Sheet 4/8 Mechanics shop and wash room rehab plan, column line 6 east interior guard post will interfere with column pier, per detail sheet A-3, steel post bollard detail plan F.

Could guard post removal be done by cutting the guard post 1" below grade line and patching. Sheet 4/8 note 11, is the contractor responsible to return in 12 months to paint the exterior wall; if so, what paint and color is to be used. Could a moisture meter test of 12% on the wall be used to forego the 12 month waiting time. Sheet A-2 detail H1, J3, J4, J5 calls for 11" C channel; standard sizes are 10" and 12". If 11" is required could it be a bent plate; if so what thickness is required.

See addendum 3

All prospective bidders, subcontractors, suppliers, materialmen and all others who have an interest in these prebid questions and answers are advised that these items are being provided for informational purposes only and are not part of the bidding documents. If a question warrants a clarification, the Department will issue an addenda addressing the request for clarification to all plan holders. If the Department believes that the bidding documents adequately address the request, the contractor will be advised accordingly.
