Communications Restrictions for Programmatic Selection Group No. 05-26-20

The Department has determined that due to the recent changes to the Programmatic Selection Group No. 05-26-20 an extension will be allowed, after the programmatic project announcement, for contacting District or Central Office personnel before implementing restrictions to these types of communications as follows:

**Communications Restrictions**

*Please note the following policy concerning communication between Consultants and the Department during the programmatic announcement and selection process:*

*During the time period between June 1, 2020 and the announcement of final consultant selections for the Programmatic Selection Process, communication with consultants (or their agents) shall be limited as follows:*

**Communications which are strictly prohibited:**

1. Communication with Districts or other Offices: *Any discussion of specific projects* included in the current programmatic group if the consultant has submitted or plans to submit a letter of interest or is included as a subconsultant for a project within the District (or projects to be managed by a specific Office).

**Allowable communications include:**

1. Project administration activities for authorized agreements, scope and negotiation activities for projects selected but not under contract, training or related activities, and technical or scope of services questions specific to projects posted with a programmatic group.

2. Marketing meetings with Districts or Offices except as limited by the restrictions noted under *Communications not permitted* above.

3. Marketing meetings with Central Office personnel that will not be included on the initial “short list” selection evaluation team.

**Roadway Engineering - OATS Manual**

ODOT has recently completed and made available on the following Roadway Engineering’s Studies web site, the ODOT Analysis and Traffic Simulation (OATS) Manual and its supporting documents. The OATS Manual provides ODOT guidance on the use of HCS and TransModeler including assumptions, methodologies and other technical requirements. Training videos and How-to videos are currently in development and will be posted when available. Projects with a scope finalized after July 17, 2020, must follow OATS Manual guidance.

Extension of Prequalification for Right of Way Acquisition Services Categories

Individual Right of Way Acquisition Services Prequalification renewals are currently scheduled for renewal expiration of July 31, 2020. The Department has decided to permanently revise the renewal expiration date for Right of Way Acquisition Services to the end of the year, December 31st, biannually. The 2020 renewal expiration date will be December 31, 2020. The prequalification categories include: Project Management for Right of Way Acquisition Services, Title Research, Value Analysis, Appraisal, Appraisal Review, Negotiation, Closing, Relocation and Relocation Review. Should you have any questions, please contact Dan Krajcovic at dan.krajcovic@dot.ohio.gov

04-27-20 Posting Date
Modeling and Forecasting - Traffic Counts

Please be advised that the ODOT Modeling and Forecasting Section in the Office of Statewide Planning and Research has developed a process to calibrate counts that are artificially low due to the COVA-19 situation. Below is a link to the Modelling and Forecasting web page and to the actual document that describes the process. This information will continue to be updated as necessary and examples highlighting the process are coming soon. Please continue to check the web site for the most current information.

For ODOT projects:

1. The preference is to defer counts until traffic patterns return to near normal;
2. If counts cannot be deferred it is preferable to use existing pre-COVA counts if available;
3. Where historical counts are not available and counts cannot be deferred follow the Modelling and Forecasting calibration process.
4. ODOT Project Managers must give approval to utilize the calibration process.

Specific questions related to the process should be emailed to Greg Giaimo at Greg.Giaimo@dot.ohio.gov in the Modeling and Forecasting Section.

Modeling and Forecasting web page:
http://www.dot.state.oh.us/Divisions/Planning/SPR/ModelForecastingUnit/Pages/CertifiedTraffic.aspx

Calibration document:
http://www.dot.state.oh.us/Divisions/Planning/SPR/ModelForecastingUnit/Documents/Traffic%20counts%20for%20traffic%20forecasts%20COVID19%20supplement.docx

03-26-20 Posting Date
Statement to Design Industry Partners Regarding COVID 19 Responses

Announcement from Lloyd V. MacAdam, P.E., P.S. Chief Engineer, Assistant Director of Transportation Policy at the following ODOT web site:

https://transportation.ohio.gov/wps/portal/gov/odot/working/announcements/announcements

******************************************************************************
As COVID-19 continues to develop, Ohio Department of Transportation is firmly committed to the health and safety of our employees, families and our business partners, such as yourself. While we remain fully operational to accommodate our business partners’ needs and requests, we take this virus seriously and monitor the daily changing situation. We continue to follow the guidance and recommendations of the CDC, WHO and federal, state, and local health departments.

Skype & Meet the “new” Meet & Greet

The Department's Districts and Offices are equipped with sophisticated and secure technology to support remote access for our employees and we have requested our staff to replace in-person meetings with tele- and video-conferencing to follow social distancing guidelines and create a safe working environment. Our intent is to minimize, as best as reasonable, any disruptions in our daily business operations. We continue to work toward customized solutions to address these changing conditions while we maintain the utmost level of service and responsiveness to each of our clients and partners.

Understanding that Meet & Greet meetings with Districts and Offices are a valued business function, we will be offering “virtual Skype & Greet” for those consultants that request this in lieu of the in-person Meet & Greets. Remember having or not having a “Skype & Greet” with a District or Office is not a requirement or criteria for selection. These meetings are often requested by Consultants that have not done work with the District/Office and want to make the District familiar with their services and the personnel they can provide. The Department requests that Consultants email a meeting Agenda or handouts prior to the Skype meeting for use in the meeting.

Potential Cancellation of Prequalification Testing/Training

ODOT will grant a temporary extension of the expiration date for those prequalification categories affected by the cancellation of ODOT-only training classes or Testing. Applicants will have 45 days to complete the training class once classes and/or testing resume. Should you have any questions, please contact Dan Krajcovic at dan.krajcovic@dot.ohio.gov

Impact on Traffic Counts

ODOT maintains about 200 permanent count stations and performs short term count data collection at 30,000 locations. We have currently suspended short term road tube and turning movement counts while still receiving data from our permanent count stations. All of our 2019 count data is available at https://odot.ms2soft.com/tcds/tsearch.asp?loc=odot which is not impacted by the current situation.

We are analyzing the permanent count data and comparing it to prior year data to determine the extent of travel pattern changes. Individual locations varied statewide, anywhere from an increase of 7.7% to a decrease of 46.6%.
When we have a process in place to adjust new traffic counts during this unusual traffic pattern; we will again begin counting short term locations. Judgment is required when atypical traffic patterns are encountered, such as the case of travel restrictions imposed by this Health Pandemic.

Thank you for your partnership. We continue to remain hopeful for “normal” business operations in the very near future.

**New Prequalification Category**

**Intelligent Traffic System Design and Operations**

The Department will be adding a new prequalification category called "ITS Design and Operations". Training will be included as part of the 2-day Traffic Signal training class. Completion of a separate test will be given exclusively for this prequalification category. Individuals who have already passed the 2-day class may opt out of the class and take an online test specific to this new category. In addition to completing the test, additional experience is needed as outlined in the Consultant Prequalification Requirements and Procedures manual to be considered prequalified.

The Department will begin requiring and implementing this new prequalification category on projects advertised after March 1, 2021.

New Security Measures at ODOT Central Office

Central Office Visitor Sign In and Security Procedures

Beginning Monday, January 27, all visitors to ODOT Central Office will be required to sign in via one of the two kiosks in the main lobby. Once you sign in, the person you are visiting will receive an email of your arrival and will greet you at the lobby, escorting you to your visiting destination. Please note that the kiosk will print out a Visitor Badge which must be worn and visible the entire time you are visiting ODOT Central Office.

Conferences and Large Meetings
When ODOT is hosting a large conference or meeting, you will need to either pre-register or notify the person in charge of the conference/meeting that you will be attending. This ensures you have a *pre-printed* badge when you arrive at ODOT Central Office.

**Consultant Prequalification Status**

**Construction Inspection Categories**

On September 23, 2019, all prequalified Consultants for Construction Inspection Categories were notified by email delineating the renewal process and necessary documentation. The Department requires an update of prequalification status every two (2) years. Construction Inspection categories for individual prequalification *expired* on December 15, 2019.

Individuals who did not submit for renewal have now been placed on the inactive list. Please verify your renewal by checking the Consultant Services Prequalification List on our website.
Consultants may submit the required documentation to be re-instated on the active prequalification list for the Construction Inspection Categories. Reference the Consultant Prequalification Requirements & Procedures manual posted to the website for required documentation.

Please note that it is the responsibility of the prequalified individual to maintain current contact information in the Department’s consultant prequalification system.

Please contact Dan Krajcovic at dan.krajcovic@dot.ohio.gov or 614-466-3742 with any questions.

Open Roads Design Transition Timeline

The Office & CADD Mapping is adjusting the ORD Transition Timeline in response to Bentley's change in their support schedule. The notable changes are as follows:

- ODOT will be updating from SS4 to SS10 for all projects not moving to ORD
- ODOT still encourages new projects to start in ORD January 1, 2020, but is providing an extension on this date. All new projects beginning after April 1, 2020 must be in ORD, unless a waiver is approved.
- Projects filing after July 1, 2022 that were not started in ORD must be converted to ORD unless a waiver is approved. This is a change/extension from the original December 31, 2021 deadline.

To initiate a waiver process please contact your project PM. Only ODOT Project Managers are allowed to submit a waiver.

ODOT 360 Survey Review by Consulting Firms

In October 2019 the Department sent an email request to Consultants that were selected as a Prime or a Subconsultant starting after 01/01/2016, to perform a 360 survey on the Department. We are extending the deadline for response to Friday, January 31, 2020. If you have already taken the survey, please do not repeat, but if you missed the email and would like to participate in the review please complete by Jan 31. Also, please recognize this survey is directed at those consultants that have been actively engaged on agreements after 01/01/2016.

**Purpose:** The purpose of this evaluation is to provide ODOT leadership with metrics to improve job performance. Metrics can be used in several ways, such as (1) to identify areas for training and improvement; (2) to track changes in performance over time; and (3) to benchmark differences between district offices.

**Methodology:** Surveys will be anonymous unless the consulting firm chooses to input contact information. ODOT is administering this survey through ODOT’s Office of Consultant Services. **Each consulting firm is asked to fill out one survey per firm.** Consulting firms should provide feedback on ODOT based on interaction with the Districts or Central Office Divisions in the last 3 years. Respondents should rate each question on a scale of 1 to 10, with “1” being “Strongly Disagree” and “10” being “Strongly Agree”.

**Survey Link:**

Training Session

The Department will be offering training classes to inform the consultant community regarding the upcoming update to ODOT Policies and Procedures to address DBE Commercially Useful Function (CUF) requirements.

The Department is required to establish the Disadvantaged Business Enterprise (DBE) Program pursuant to 49 CFR Part 26 (Participation by Disadvantaged Business Enterprises in Department of Transportation Financial Assistance Program). The ODOT DBE Program
identifies how DBE participation is counted toward the DBE goal on a federally-funded project. Credit for DBE participation can only be counted if the DBE performs a commercially useful function (CUF) pursuant to 49 CFR § 26.55, et seq.

A DBE performs a CUF when it is "Responsible for execution of the work of the contract or a distinct element of the work . . . by actually performing, managing, and supervising the work involved." CUF begins at the time of Contract Award.

A DBE will not be considered to perform a CUF if its role is limited to that of an extra participant in a transaction, contract, or project through which funds are passed to obtain the appearance of DBE participation.

This training will provide an overview of how ODOT identifies issues and red flags in order to ensure compliance. The training will also address new required documentation requirements by ODOT and Consultants for CUF reporting on a project by project basis.

Prime Consultants and DBE Consultants are invited to attend sessions. The training on February 12th is divided into 2 separate sessions. The first session will be focused on firms providing Planning, Environmental, Design and Construction Inspection type activities. The second session is focused on Consultant Inspectors performing CUF reviews for Local Programs.

When: February 12, 2020
9:00am to 12:00pm Session 1
1:00pm to 4:00pm Session 2

Where: ODOT Central Office Auditorium
1980 West Broad Street, Lower Level
Columbus, Ohio

Registration is required, and additional information is available at the following:

Session 1 – Planning, Environmental, Design and Construction Inspection Consultants
https://cuf-consultants.eventbrite.com

Session 2 – Local Programs Consultant Inspectors

ACEC Ohio Ethics Training Course

ACEC Ohio is excited to announce we have partnered with industry leaders to develop an online, on-demand ethics training course customized for Ohio ethics and law.
In 2018, the Ohio Legislature added a new requirement for license renewal; two-hour's worth of ethics training pertaining to the Ohio Revised Code every two years. With this new requirement, ACEC Ohio took action and developed a low-cost course to satisfy the training requirements.

The ACEC Ohio course consists of a two-part module equating to two hours of work and is available to all engineers working in Ohio for only $50.

The course is now available! Please visit acecohio.cd2learning.com to get started! Call ACEC Ohio at 614-487-8844 or email info@acecohio.org with questions.

Request for Letters of Interest
VAR-STW Automated Driving Systems
PID No. 111090

On November 18, 2019, the Department will post a request for Letters of Interest for a consultant providing support services to DriveOhio for the Automated Driving Systems (ADS) grant project. A single team will be selected to provide these services, which will include:

2. Design Guidance Planning Documents including Performance Measurement Plan, Data Management Plan (DMP) within ~60 days, and Data Privacy Policy (DPP).
5. Truck Automation including Concept of Operations (ConOps), System Requirements, Interface Control Document (ICD), Systems Architecture Integration (into regional ITS), Controlled Environment Test Plan, Execution & Results, Field Environment Test Plan, Execution & Results, Operations & Maintenance Plan (O&M), and Safety Management Plan (SMP).
6. Communications & Outreach including Communications & Outreach Plan, Playbook, and Presentations & Learning Exchanges.

ODOT has been selected for a $7,500,000 award for their D.A.T.A. (Deploying Automated Technology Anywhere) in Ohio project. A component of ODOT's commitment to this Consultant Agreement is funding support services for identified activities throughout the project life. ODOT is working with the USDOT on the contracting process to begin the ADS project in early 2020. This Request for Letters of Interest is contingent on and subsequent to the project with USDOT. If the USDOT/ADS project is not contracted, then this Consultant Agreement will not be
executed or any work authorized. The maximum prime compensation will be $2,346,754 and the duration of the agreement will be 54 months.

VAR-STW-Smart Mobility Advisory Services

**PID No. 111093**

On November 18 2019, the Department will post a request for Letters of Interest for statewide strategic and financial advisory services to DriveOhio on a task order basis. A single team will be selected to provide these services. The services requested include: 1) Evaluation of potential autonomous and connected-vehicle projects, including 3P agreements, revenue generating projects or cost-saving opportunities. 2) Preparation of financial analysis and budgets for grant submittals, studies of commercial viability and feasibility of connected and automated-vehicle projects, and strategic recommendations regarding revenue generating deployment options and additional cost-saving opportunities. 3) Development of documents for use in requesting statements of qualification, proposals or information from private sector partners. 4) Providing assistance to the Department in evaluating submittals received in response to DriveOhio’s requests for qualification, proposals or information received. 5) Providing strategic advice and assistance to the Department in developing grant application submissions and contract documents for the implementation of P3 agreements, revenue generating projects or cost-saving opportunities. 6) Market sounding for Smart Mobility Projects. 7) Marketing related documents promoting Ohio connected and autonomous vehicle ecosystems. 8) Other related services as requested.

The maximum prime compensation will be $1,500,000.00 and the duration of the agreement will be 24 months from date of authorization to proceed.

Request for Letters of Interest
VAR-STW-Smart Mobility Advisory Services
PID No. 111093

On October 21, 2019, the Department will post a request for Letters of Interest for statewide strategic and financial advisory services to DriveOhio on a task order basis. A single team will be selected to provide these services. The services requested include: 1) Evaluation of potential autonomous and connected-vehicle projects, including 3P agreements, revenue generating projects or cost-saving opportunities. 2) Preparation of financial analysis and budgets for grant submittals, studies of commercial viability and feasibility of connected and automated-vehicle projects, and strategic recommendations regarding revenue generating deployment options and additional cost-saving opportunities. 3) Development of documents for use in requesting statements of qualification, proposals or information from private sector partners. 4) Providing assistance to the Department in evaluating submittals received in response to DriveOhio’s requests for qualification, proposals or information received. 5) Providing strategic advice and assistance to the Department in developing grant application submissions and contract documents for the implementation of P3 agreements, revenue
generating projects or cost-saving opportunities. 6) Market sounding for Smart Mobility Projects. 7) Marketing related documents promoting Ohio connected and autonomous vehicle ecosystems. 8) Other related services as requested.

The maximum prime compensation will be $1,500,000.00 and the duration of the agreement will be 24 months from date of authorization to proceed.

Selection Schedule

Updates to Consultant Prequalification Requirements & Procedures

Minor revisions have been made to the Consultant Prequalification Requirements & Procedures, 2019 Edition:
1) Environmental Document category. The NEPA Course is now valid for a 5-year period in lieu of the 10-year period previously noted. This supports the April 2019 revisions made to the requirements.

2) Ecological Surveys category. The Ecological 300 training course has been eliminated.

Please review these updates on the Consultant Services Webpage.

 District 6 Consultants Workshop

WHEN: Monday, August 19th 8:00am - 12 Noon
WHERE: Liberty Township Hall
        7761 Liberty Rd
        Powell, OH 43065

District 6 will be hosting a workshop for consultants wishing to provide engineering services for the District. This will be an opportunity for all firms, including those who have visited District 6 in the past nine months, to meet and talk with District Administrators, Project Managers, and Reviewers prior to the September Programmatic.

The upcoming program includes numerous safety projects, general engineering services, construction inspection and an interstate major rehabilitation. Speakers will present technical details of each project along with Q&A. In addition, topics of general interest to help you do business with ODOT will be presented.

Due to space limitations, we ask that firms limit attendance to no more than 2 people. For those unable to attend, the project description segments will be recorded and made available at the site linked below. The District will accommodate requests for visits and additional information,
but because of time constraints and other commitments, may not be able to in the time frame desired.

Reference documents for the September Programmatic will be posted as available to:

Please RSVP by e-mailing Edie.Parker@dot.ohio.gov by Tuesday, August 13th.

**ODOT/ACEC Partnering Conference**

**Topic Outcome / Action Summary**

In May 2012 the Department and the American Council of Engineering Companies of Ohio (ACEC) worked jointly in developing the first ODOT/ACEC Partnering Conference to address potential issues between expectations of the Department and ACEC members. While all topics discussed at the Conferences have resulted in investigation, over the last eight years, several action items have resulted in implementation (see table below). ODOT and ACEC are continually working collaboratively to address issues and potential improvements. In the table below are the 2019 Conference Outcome / Action items that we will be addressing over the next year.

Please note: The list below is representative of major outcomes or actions needed, not necessarily an all-inclusive list of items discussed.

<table>
<thead>
<tr>
<th>Year</th>
<th>Topic</th>
<th>Outcome / Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>2019</td>
<td>“Put Yourself in My Shoes” Letter of Interest (LOI)</td>
<td>Committee of ACEC and ODOT to evaluate current process of scoring criteria and weights including Design vs. IDIQ vs. RW vs …. Also included in this process review is the evaluation of the current LOI formats (Graphics vs no Graphics, # of pages, etc.).</td>
</tr>
<tr>
<td>2019</td>
<td>“Getting Down to Business” Meet and Greet</td>
<td>ODOT will develop a “Who to Call” contact information list to assist Consultants in setting up Meet &amp; Greets with the Department. The Department will investigate and emphasize best practices of sharing project information to the Industry enabling earlier planning, teaming and ability to target Meet and Greet meetings to specifics of a project.</td>
</tr>
</tbody>
</table>
To move closer to consistency throughout the State, the Department will investigate developing an online training for ODOT personnel involved in consultant evaluation. This Video training will also be made available to all Consultants, helping to better understand the guidelines for CES scoring. In addition, a Committee of ACEC and ODOT will investigate developing a “360 Survey” for Industry to evaluate ODOT.

Revised Rates for Calculation of Fixed Fee

The revised average overhead rate for fixed fee calculation will be 156.68% with NO separate rate for geotechnical services. This rate was calculated based on a weighted average with the weighting based on funds encumbered from FY 2015 through FY 2019 (as of 12-31-18). Sixty (60) firms were included in calculations for the overall rate.

The revised rates will apply to proposals for agreements and modifications received in Consultant Services on or after June 15, 2019, and similarly for task order proposals (for existing agreements) received in District or other offices. If a project profile was established in SAFe prior to June 15th the rate will remain at the rate established at the time of profile creation.

The revised average overhead rates are permanently posted under the heading Proposal & Fee Information on the Consultant Services website. Questions should be directed to Dan Krajcovic, Lindsey Pflum, Susan Stehle or Mat Mauger in the Office of Consultant Services.

ODOT/ACEC Statewide Matchmaking Event

The Ohio Department of Transportation and the American Council of Engineering Companies of Ohio are pleased to announce a statewide Matchmaking Event to help connect prime consultant companies with DBE/EDGE subconsultant companies. The companies will interact one-on-one. Prime consultants will explain the services they are seeking and DBE/EDGE subconsultant will describe the services they offer.

Please be prepared to offer brief, succinct remarks (10 minutes max) and to speak to multiple companies. Subconsultants should bring copies of their capability statement with NAICS code(s).

When: August 6, 2019 8:30am - 12:30pm
Where: Xenos Christian fellowship Center
The Ohio Department of Transportation (ODOT) is in the process of developing its Federal Fiscal Year 2020 through 2022 Triennial DBE Goals, which are required by the Code of Federal Regulation 49, Part 26. Through this process, ODOT is establishing two separate DBE goal methodologies - one for contracts funded by Federal Highway and one for Federal Transit.

Your comments and feedback are important. Please register for one of the following Public Meeting location and times. (Registration is not required)

Safety Programmatic Consultant Selection Group No. 05-20-19

The Department has identified the Safety Programmatic Consultant Selection Group projects and posted the listing on the Department's website as a Future Programmatic dated May 20, 2019. This Programmatic identifies 20 individual projects as separate Agreements and 6 District Agreements that will have multiple locations identified. This posting includes a tentative listing of the projects assigned EDGE goals. Please note that this list is preliminary and may change in the actual posting.

The timing for this special Safety Programmatic Consultant Selection Group will overlap with the Department's May 2019 Programmatic Group. It is the intent of the Department to keep these Groupings separate and independent when evaluating the Letters of Interest.

The selection schedule is as follows:

<table>
<thead>
<tr>
<th>Website Posting</th>
<th>05-20-19</th>
</tr>
</thead>
<tbody>
<tr>
<td>Letter of Interest Due Date</td>
<td>06-10-19 2:30pm</td>
</tr>
<tr>
<td>Selection</td>
<td>Late June 2019</td>
</tr>
</tbody>
</table>

The Department reserves the right to amend the Selection Schedule.
