

Geotechnical Proposals

The background is a solid teal color. In the lower half, there is a faint, semi-transparent graphic of two hands shaking, symbolizing agreement or partnership. The text 'Geotechnical Proposals' is centered in the upper half in a white, serif font.

Geotechnical Proposals

- As investigations get more complicated (testing, traffic control, etc.) and project planning becomes more detailed, investigation costs rise
- Distribution of Costs
 - Reconnaissance and Planning = 7%
 - Drilling and Sampling = 50%
 - Laboratory Testing = 19%
 - Analysis and Report Preparation = 24%

Geotechnical Proposals

- Prepare the price proposal in accordance with the Specifications for Consultant Services, Chapter 6, Price Proposals for Agreements and Modifications
 - Cost Summary
 - Detailed breakdown of proposed total hours, personnel categories, and labor rates - labor categories should be specific to your company
 - Non-labor direct cost summary
 - Overhead and cost of money calculation documentation

Geotechnical Proposals

- Must have a well-explained scope of services accompanying cost summary
 - Clearly explain proposed drilling program; include boring plan
 - Present an itemized boring list and total rock and soil drilling footage
 - Clearly explain status of investigation (preliminary, final, step 6, etc.)
 - Clearly identify “if authorized” scope of work and present separate cost summary, as requested
 - Clearly identify and segregate all traffic maintenance costs
