Date: October 21, 2011

To: Users of the Hydraulic Standard Construction Drawings

Re: Hydraulic Standard Construction Drawing Revisions

Transmitted herewith are revisions to the Hydraulic Standard Construction Drawings. The following significant revisions have been made.

DM-4.1

- Minor adjustments were made to account for curb heights coming down from 6" to 4".

DM-5.1

- DM-5.1 has been removed due to conflicts with the Rain Water Manual and current permitting requirements for temporary access fills.

I-2.1 and I-2.4

- Updated to remove Barrier Type A and A1 which no longer exists.

Copies of all of the current Hydraulic Standard Construction Drawings are available in Microstation and PDF formats on our website at:

<http://www.dot.state.oh.us/Divisions/Engineering/Structures/standard/Pages/Revisions.aspx>.

Technical questions or recommended changes should be directed to Jeff Syar (614) 275-1373 or Rebecca Humphreys (614) 387-1125.

Respectfully,

A handwritten signature in black ink that reads "Jeff Syar". The signature is written in a cursive style with a large initial "J" and "S".

Jeff Syar, P.E.

Hydraulic Section Head
