NOTES

FENCE TYPE: Fence terminals shown on this drawing apply to Type 47 fence as detailed, however, the same designs may be used in the construction of all Types of fence. It modified for differences in a basic design such as anchor assembly, height of fence, length of panels, or any other variance that would affect the terminal design. Cost of furnishing and installing connecting rods, eyebolts and anchors for wall connections shall be included in the unit price bid per foot of fence.

ANCHORS: Self-drilling anchors shall conform to CMS 712.01. Threaded steel inserts may be cast-in-place when the structure is constructed, instead of using self-drilling anchors.

EYEBOLTS: The steel shall be in accordance with ASTM A 489, except that the bend test is waived. The eyebolt shall be galvanized in accordance with ASTM A 153.
