NOTES

1) Treat all wood as specified in CMS 710.05.
2) Galvanize all bolts, washers, and nuts as specified in CMS 710.01 and 710.10. Countersink face of rails to provide flush bolt heads.
3) Provide a wood railing that is smooth and splinter free.
4) Where less than 1'-0" of graded shoulder width (flat or flatter) extends beyond the edge of the face rail, use longer posts so that a minimum 5'-0" embedment depth is provided.
5) The bottom end of the 6"x6" posts may be cut to a 45° point.
6) Stagger butt ends of the top rail and the lower face rail on alternate posts. Center all butt ends on the posts.
7) Include the cost of furnishing and placing all posts, rails, and hardware in the unit price bid for Item 607 - Fence, Misc.: Wood Fence.

Bicycle Path
